**Contact us prior to shipping in order to arrange availability for receiving package**

**Instruction for frozen specimen shipping:**

1. Make sure specimens are frozen through
2. Wrap in one or two plastic garbage bags -to prevent leaks
3. Wrap specimen bags in newspaper. Or other insulation
4. Place in a cardboard box that is of sufficient size and strength to put lots of crumpled newspaper around it for insulation and reduce movement during shipping.
5. Send **OVERNITE –UPS or FEDEX**
  - a. (the cheapest overnite is OK, you don't have to pay for early am delivery).
  - b. No dry ice or ice packs needed.
  - c. I recommend dropping off at shipping location as late in the day as possible to reduce thawing time- Check with service for last pickup time
  - d. USPS overnight is not reliable enough to these locations
6. Email Tracking number to [HorseScienceAnatomyworks@gmail.com](mailto:HorseScienceAnatomyworks@gmail.com) as soon as you ship.

It is best to Send on Monday or Tuesday (gives room to find lost package before weekend if something goes wrong)

Shipping address is:

Horse Science Anatomyworks  
% Caleb Bergeleen  
25 Nollkamper Rd  
Boerne, TX 78006

OR

Horse Science Anatomyworks  
% Jaret Pullen  
9 Greenbush Rd  
Charlotte, VT 05445

Put business cards in box: one for each limb and one for file. Include written preparation instructions. This is to prevent a leg mix-up.
